

WHEEL PROJECT KICK-OFF MEETING

**DRAFTING THE
EVIDENCE-BASED DIAGNOSIS DOCUMENT**

Genova, 10th April 2019

Today's session is aimed at identifying and defining the composition of the six Working Groups that will work on defining the EBD in the coming weeks, in the framework of the work-package 1.

The audience of the approximately 45 participants has to be divided into groups composed from 7/8 people. For each of the groups, a reference person will be identified.

Each group will process the topics listed in the table.

The discussion will take place for about 15/20 minutes and will focus on the single question "What are the priorities for the Libyan HE system in the short-medium term?". Afterwards, the duly fulfilled forms will be collected.

The forms will be processed by UNIGE and by the end of today's morning session, the six most frequent topics will be defined.

These topics will form the basis of the discussion of the working groups of the project in the coming weeks, without prejudice however to the possibility of proposing other, more urgent, topics during the work of the groups themselves.

WHEEL KOM FocusGroup - Composition

Please discuss the following topics within your group (add others if you think they are important for your University / Country) and then please choose 3 topics that are the most important according to your group. Furthermore, please be so kind to rate this priority assigning the position (first, second, third.)

Group _____

Topic	
Harmonization of didactical offer with Bologna Process	
Designing and accreditation of study programmes	
Institutional governance (within University)	
Systemic governance	
Innovation & Technology Transfer	
Internationalization and networking indicators	
Stakeholders engagement	
Inter-university networking tools	
Quality assurance	
Teaching activities and methodologies	
Research activities	
Infrastructures	
Staff training	
Management	
Market culture	
e-learning and innovative teaching & assessment methods	
.....	
.....	

**EVIDENCE-BASED DIAGNOSIS DOCUMENT
REPORT OF THE FOCUS GROUPS
11th APRIL 2019**

Genova, 11th April 2019

The session aimed at identifying and defining the six topics on which Working Groups will discuss in the next months, in the framework of the work-package 1.

The audience of the approximately 45 participants has been divided into small groups tasked of discussing on a single question: "What are the priorities for the Libyan HE system in the short-medium term?". Each group had a form to fill in where a list of topics (taken by Erasmus plus priorities as well as the previous project UNIGOV results) were proposed. They also had the possibility of adding others in the empty boxes. Each group had to fill in the form by indicating the 3 main important topics to be analysed more in depth during the project lifetime and by rating them (first, second, third).

After a 30-minute discussion each group appointed a reference person who presented the group finding to the others (in attachment all the forms).

The following topics will form the basis of the discussion of the working groups of the project in the coming weeks, without prejudice however to the possibility of proposing other, more urgent, topics during the work of the groups themselves.

QUALITY ASSURANCE

STAFF TRAINING and TEACHING ACTIVITIES and METHODOLOGIES

RESEARCH ACTIVITIES and INNOVATION & TECHNOLOGY TRANSFER

INFRASTRUCTURES and ICT

MANAGEMENT

SYSTEMIC GOVERNANCE
